I, Aaron Winnick
agree to donate my organs for life-saving transplantation (not for research) after
the option checked below:

☒ Irreversible cessation of autonomous breathing, that is confirmed by brain
death. [This is the position of the Chief Rabbinate of Israel]

☐ Irreversible cessation of heartbeat. [From a medical perspective,
this limits the number of organs that may be recovered.]

All preparations for transplant must be done in consultation with my
family-appointed Rabbi. All medical procedures must be done with utmost care,
respect, and minimum damage to the cadaver.
