I, Rabbi Norman Lamm

agree to donate my organs for life-saving transplantation (not for research)

after (the option checked below):

☒

Irreversible cessation of autonomous breathing, that is confirmed

by brain death. [This is the position of the Chief Rabbinate of Israel.]

☐

Irreversible cessation of heartbeat. [From a medical perspective,

this limits the number of organs that may be recovered.]

All preparations for transplant must be done in consultation with my

family-appointed Rabbi. All medical procedures must be done with

utmost care, respect, and minimum damage to the cadaver.
